Introduction

We have reviewed the accompanying condensed consolidated balance sheet of Aselsan Elektronik Sanayi ve Ticaret A.Ş. (the “Company”) and its subsidiaries (together the “Group”) as of 30 June 2013 and the related condensed consolidated statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the six-month period then ended. Group Management is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with the Turkish Accounting Standards published by the Public Oversight Accounting and Auditing Standards Authority (“POA”). Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the independent auditing standards published by the Capital Markets Board. A review of consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards published by the Capital Markets Board and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with the Turkish Accounting Standards issued by the POA.

Basis of Consolidation

Subsidiaries:

The details of the subsidiaries of the Group are as follows:

Subsidiaries	Location	Group's proportion of ownership and voting power held (%)		Principal Activity
		30 June 2013	31 December 2012	
Mikes	Turkey	96,36	96,36	Microwave R&D projects
AselsanNet	Turkey	95	95	Telecommunication system
Aselsan Bakü (*)	Azerbaijan	100	100	Marketing and sales of the group products
Mikroelektronik Ar-Ge Tasarım ve Tic. Ltd Şti. (*)	Turkey	85	85	Microelectronic R&D projects

(*) Excluded from group consolidation as it does not significantly affect the consolidated financial results.

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders,
- potential voting rights held by the Company, other vote holders or other parties,

Basis of Consolidation (cont'd)

- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate the Company has, or does have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meeting.

Consolidation of subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Interests in joint ventures:

The details of the Group's interests in joint ventures as of 30 June 2013 and 31 December 2012 are as follows:

Joint Ventures	Country of incorporation and operation	Group's proportion of ownership and voting power held (%)		Principal Activity
		30 June 2013	31 December 2012	
IGG Aselsan Integrated Systems LLC	B.A.E.	49	49	Marketing and sales of the group products

(Amounts are expressed in Turkish Lira(TL).)

2. BASIS OF PRESENTATION OF THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.1 The basis of presentation (cont'd)

Basis of Consolidation (cont'd)

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

IGG Aselsan Integrated Systems LLC and Kazakhstan Aselsan Engineering LLP established in 2011 and Aselsan Middle East PSC LTD (Jordan) established in 2012, which are classified as non-current financial assets and accounted with acquiring cost after impairment were not included in the consolidation, have not started operations and their effect on the consolidated financial statements of the Group are deemed to be immaterial.

2.2 Changes in the Accounting Policies

Significant changes in accounting policies are applied retrospectively and prior period financial statements are restated.

2.3 Changes in the Accounting Estimates and Errors

If estimated changes in accounting policies are for only one period, changes are applied on the current year but if the estimated changes are for the following periods, changes are applied both on the current and following years prospectively. The Group has no significant changes to the accounting estimates in the current period.

The estimated errors in the accounting policies are applied retrospectively and the prior year's financial statements are restated accordingly.

TAS 19 Employee Benefits

The amendments to TAS 19 change the accounting for defined benefit plans and termination benefits. The most significant change relates to the accounting for changes in defined benefit obligations and plan assets. The amendments require the recognition of changes in defined benefit obligations and in fair value of plan assets when they occur, and hence eliminate the "corridor approach" permitted under the previous version of TAS 19 and accelerate the recognition of past service costs.

TAS 19 Employee Benefits (cont'd)

. The amendments require all actuarial gains and losses to be recognized immediately through other comprehensive income in order for the net pension asset or liability recognized in the consolidated statement of financial position to reflect the full value of the plan deficit or surplus. Furthermore, the interest cost and expected return on plan assets used in the previous version of TAS 19 are replaced with a “net-interest” amount, which is calculated by applying the discount rate to the net defined benefit liability or asset. The amendments to TAS 19 require retrospective application.

Specific transitional provisions are applicable to first-time application of TAS 19. The Group has applied the relevant transitional provisions and restated the comparative amounts on a retrospective basis as given below. The application did not have a significant impact for the periods before 31 December 2012.

Amendments to TAS 1 Presentation of Items of Other Comprehensive Income

TAS1 (Amendments) "Presentation of Items of Other Comprehensive Income" is effective for the annual periods on or after 1 June 2012. The amendments introduce new terminology for the statement of comprehensive income and income statement. Under the amendments to TAS 1, the 'statement of comprehensive income' is renamed the 'statement of profit or loss and other comprehensive income' and the 'income statement' is renamed the 'statement of profit or loss'. The amendments to TAS 1 retain the option to present profit or loss and other comprehensive income in either a single statement or in two separate but consecutive statements. However, the amendments to TAS 1 require items of other comprehensive income to be grouped into two categories in the other comprehensive income section: (a) items that will not be reclassified subsequently to profit or loss and (b) items that may be reclassified subsequently to profit or loss when specific conditions are met. Income tax on items of other comprehensive income is required to be allocated on the same basis - the amendments do not change the option to present items of other comprehensive income either before tax or net of tax. The amendments have been applied retrospectively. Other than the above mentioned presentation changes, the application of the amendments to TAS 1 does not result in any impact on profit or loss, other comprehensive income and total comprehensive income.

New and revised Standards on consolidation, joint arrangements, associates and disclosures

In May 2011, a package of five standards on consolidation, joint arrangements, associates and disclosures was issued, including TFRS 10, TFRS 11, TFRS 12, TAS 27 (as revised in 2011) and TAS 28 (as revised in 2011).

Key requirements of these five standards are described below:

TFRS 10 replaces the parts of TAS 27 Consolidated and Separate Financial Statements that deal with consolidated financial statements. SIC-12 Consolidation - Special Purpose Entities will be withdrawn upon the effective date of TFRS 10. Under TFRS 10, there is only one basis for consolidation, that is control. In addition, TFRS 10 includes a new definition of control that contains three elements: (a) power over an investee, (b) exposure, or rights, to variable returns from its involvement with the investee, and (c) the ability to use its power over the investee to affect the amount of the investor's return. Extensive guidance has been added in TFRS 10 to deal with complex scenarios.

b) New and Revised IFRSs applied with no material effect on the consolidated financial statements which are effective after 2013 (cont'd)

New and revised Standards on consolidation, joint arrangements, associates and disclosures (cont'd)

TFRS 11 replaces TAS 31 *Interests in Joint Ventures*. TFRS 11 deals with how a joint arrangement of which two or more parties have joint control should be classified. SIC-13 *Jointly Controlled Entities - Non-monetary Contributions by Venturers* will be withdrawn upon the effective date of TFRS 11. Under TFRS 11, joint arrangements are classified as joint operations or joint ventures, depending on the rights and obligations of the parties to the arrangements. In contrast, under TAS 31, there are three types of joint arrangements: jointly controlled entities, jointly controlled assets and jointly controlled operations. In addition, joint ventures under TFRS 11 are required to be accounted for using the equity method of accounting, whereas jointly controlled entities under TAS 31 can be accounted for using the equity method of accounting or proportional consolidation.

TFRS 12 is a disclosure standard and is applicable to entities that have interests in subsidiaries, joint arrangements, associates and/or unconsolidated structured entities. In general, the disclosure requirements in TFRS 12 are more extensive than those in the current standards.

In June 2012, the amendments to TFRS 10, TFRS 11 and TFRS 12 were issued to clarify certain transitional guidance on the application of these IFRSs for the first time. These standards did not have any effect on the financial statements.

TFRS 13 Fair Value Measurement

TFRS 13 establishes a single source of guidance for fair value measurements and disclosures about fair value measurements. The Standard defines fair value, establishes a framework for measuring fair value, and requires disclosures about fair value measurements. The scope of TFRS 13 is broad; it applies to both financial instrument items and non-financial instrument items for which other IFRSs require or permit fair value measurements and disclosures about fair value measurements, except in specified circumstances. In general, the disclosure requirements in TFRS 13 are more extensive than those required in the current standards. For example, quantitative and qualitative disclosures based on the three-level fair value hierarchy currently required for financial instruments only under TFRS 7 *Financial Instruments: Disclosures* will be extended by TFRS 13 to cover all assets and liabilities within its scope.

The application of this new standard did not have any significant effect on the financial statements.

The amendments to TAS 1 clarify that an entity is required to present a third statement of financial position only when the retrospective application, restatement or reclassification has a material effect on the information in the third statement of financial position and that related notes are not required to accompany the third statement of financial position.

Amendments to TFRS 7 and Offsetting Financial Assets and Financial Liabilities and the Related Disclosures

The amendments to TFRS 7 require entities to disclose information about rights of offset and related arrangements (such as collateral posting requirements) for financial instruments under an enforceable master netting agreement or similar arrangement.
