MASTER WARNING / CAUTION PANEL

Master Warning / Caution Panel consists of two independent indicators for the annunciation to the pilot and copilot. Master Caution Rectangular Illuminated Indicator is responsible of indicating/resetting caution situations to pilot and copilot via illuminated buttons. Master Warning Rectangular Illuminated Indicator is responsible of indicating/resetting warning situations to pilot and copilot via illuminated buttons.

Technical Specifications

- Warning and Caution indication and Reset Capability

Interfaces

- MIL-STD-704F 28 VDC Electrical Power Interface
- Discrete Interfaces

Qualifications

- MIL-STD-810 / DO-160E
- MIL-STD-704
- MIL-STD-461

Physical Specifications

- Operating Temperature and Altitude
: -40°C / +55°C, 15.000 ft.
- Storage Temperature
: -55°C / +85°C

Physical Specifications

- Dimensions: 28 mm (H) x 180 mm (W) x 110 mm (D)
- Weight: <300 gr
