

SCADA

NATIONAL SCADA & AUTOMATION SYSTEM

SCADA

NATIONAL SCADA & AUTOMATION SYSTEM

Features

- Communication Management
- Alarm Management (Live and Historic Alarms)
- Event Management (Process, Infrastructure, Platform, Software)
- Trend Management
- Geographical Information System
- Customizable Dashboards and Widgets
- Tag Management (Measurements and Controls)
- Customizable Process Diagrams (Dynamic animation support)
- Data Historian
- Customizable Report Generation
- Custom Scenario Generation/Deployment/Processing
- Attribute Based Access Control (OpenId Connect, OAuth Protocol support)
- Microservice based IoT Architecture
- Scalability
- High Availability
- Cloud Native
- Interoperability
- Cyber security
- Auditability

Protocols

- IEC 60870-5-104
- IEC 60870-5-101
- IEC 61850 (MMS)
- DNP3
- MODBUS TCP
- OPC UA
- HTTP (SOAP, REST)
- MQTT
- Custom Protocol Support
